

## Sponsored Student Projects

---

In the meeting on 25 October 2013, the Committee on Student Affairs (CSA) endorsed a Support Scheme for Sponsored Student Projects and Groups to facilitate the students' access to campus resources for student projects and activities.

The scheme aims to provide appropriate support to individual students and informal student groups not affiliated to the Students' Union (SU) in organizing student activities to meet the diverse interests of students. Individual students or student groups may apply to the Panel on Sponsored Student Projects and Groups ("the Panel") for approval to access campus resources as Sponsored Student Projects.
